

SEABOB

Performance **Raise**

Speciality equipment for performance driving.

Before using the SEABOB F5 **SR**, thoroughly read the following safety information for operation of the SEABOB and the information as well as the instructions contained in the detailed SEABOB User Manual provided by the manufacturer CAYAGO AG.

1. Introduction

With your SEABOB-Upgrade **Performance Raise** you get an increase in performance.

Equipment features

- 10% more thrust performance
- 7 Power Levels
- SEABOB Camsystem with two integrated cameras (Front and Selfie)
- built-in storage system and a WiFi transmission module
- sporty rear fin design
- F5 **SR** nameplate

With Performance Raise you get even more performance, a sporty new design, and further increased maneuverability when driving underwater, thanks to the two rear fins. Simultaneously, you can capture your unique experiences over or under the water with the SEABOB Cam and share it with others via the free SEABOB App. Your preferred design "Special Colour", "Bicolour" or "Big Label Design" also gives your SEABOB an individual touch.

2. Safety information

⚠ Before using the SEABOB, it is mandatory to read and understand the safety information, the User Manual SEABOB Cam as well as the detailed SEABOB User Manual. Please keep these manuals safe during the entire operational lifespan of your SEABOB. It is necessary to carefully read and understand these manuals. If you do not observe the information contained in these manuals, it may result in serious injury or death.

⚠ Take particular care when using the SEABOB F5 **SR**. Please pay special attention to the higher maximum speed as well as the quicker acceleration caused by the increase in performance. Always keep an eye on the surrounding area to avoid hurting yourself and others. Always keep a reasonable distance from people and objects in the vicinity!

⚠ Ensure that all safety information contained in the detailed SEABOB User Manual is observed, especially the safety information concerning diving to a depth of more than 2.5 m (Chapter 1.4) and the regulations for diving (chapter 5.6 and 5.7).

⚠ Ensure that you have completely understood all functions and properties of the SEABOB, before each and every use. In case of doubt, please contact the manufacturer or your SEABOB specialist dealer.

For service or repairs please contact the manufacturer or your SEABOB specialist dealer.
